

The ecoinvent database can easily be imported in openLCA ([www.openLCA.org](http://www.openLCA.org)) and provides many Life Cycle Impact Assessment methods and around 4,000 quality-assured processes for modelling LCA product systems.

With your order, you enter licence contract with the ecoinvent Centre (The Swiss Centre for Life Cycle Inventories, EMPA, St. Gallen, Schweiz), following conditions set forth by the ecoinvent Centre. Requirements and rights for you are the same as if ordering by the ecoinvent centre.

**Before you order, please be aware that:**

- You have to pay the licence fee only once (no prolonging service contract).
- After we receive your order, we will send you a registration code for ecoinvent. This code gives you access to the user area of the ecoinvent website ([www.ecoinvent.org](http://www.ecoinvent.org)) with all most recent datasets, project reports, and documentation.
- The ecoinvent licence is not bound to openLCA, it may be used also independently.

### Your contact details

Organisation:	Department:
Name:	Phone:
Street:	Fax:
Zip-code:	E-mail:
City:	Order no.:
Country:	EU-VAT Nr.*:
* When ordering from European countries (besides Germany), please specify a valid V.A.T. number since we otherwise need to add 19% VAT to the licence fees. Thanks!
