

The ecoinvent database v3 can easily be imported in openLCA (www.openLCA.org) and provides many Life Cycle Impact Assessment methods and around 10,000 quality-assured processes for modelling LCA product systems.

With your order, you enter licence contract with the ecoinvent centre (The Swiss Centre for Life Cycle Inventories, EMPA, St. Gallen, Schweiz), following conditions set forth by the ecoinvent centre. Requirements and rights for you are the same as if ordering by the ecoinvent centre.
