20 July 2026

Dear Julia,

Thank you for the opportunity to review GreenDelta's Circularity Package. I'm confident it will be a valuable resource for businesses and researchers seeking to quantify product circularity in line with:

- ISO 59020:2024, Circular Economy, measuring and assessing circularity performance, and
- The Ellen MacArthur Foundation's Material Circularity Indicator (MCI) methodology

As a co-author of the ISO 59020 standard and the MCI methodology, I have reviewed the documentation and a representative sample of the records in the package and can confirm that they align well with the principles and methodologies for which they are intended.

It's encouraging to see the development of the GreenDelta Circularity Package as an extension to ecoinvent 3.12, and to have had the opportunity to support you by reviewing it prior to release.

Kind regards,

A handwritten signature in blue ink that reads "James R. Goddin".

Dr Jim Goddin
Head of Circular Economy
